Dear Maestro Tommaso Liuzzi,

On behalf of the University Hospital Notre Dame Des Secours, I would like to thank you for your valuable and enormous organization of 6 new specialized workshops for our patients on 23rd of November 2018 (4 adults and 2 children).

The experience, held for the third time in our hospital, is an innovative approach in **pain management** and it is helping our patients to experiment emotional and psychosocial adjustment to illness, especially in the **Intensive Care Unit** where the technique was very fruitful.

The EUTERPE method applied in Health Psychology is proving to be an efficient practice and we hope that we will be able to implement a permanent EUTERPE laboratory in our Center of Cancer.

Thank you for your scientific generosity and your passion for the development of Music Therapy in the hospital settings.

Father Wissam KHOURY

General Director
